

Job offer: Senior Group Leader (Ref.: IMIM0801-Albanell)

Posted: June 10, 2008

LOCATION

Location: Program in Cancer Research, IMIM-Hospital del Mar. Barcelona, Spain.

Employer: Institut Municipal d'Assistència Sanitària (IMAS) (www.imim.es)

DESCRIPTION

The IMIM-Hospital del Mar is an institute of research located in the Barcelona Biomedical Research Park (<http://www.prbb.org>), a new building attached to the Hospital del Mar also hosting the Center for Genomic Regulation (CRG), the School of Life Sciences of the University Pompeu Fabra and the Center for Regenerative Medicine (CMRB). Scientists have access to state-of-the-art core facilities including genomics, advanced optical microscopy, FACS and a modern animal house.

With the main goal of connecting basic research with clinical realities, IMIM-Hospital del Mar has recently created a Program in Basic and Translational Cancer Research. The program has 14 groups, including basic, preclinical and clinical groups, and is coordinated by Joan Albanell. We are seeking outstanding applicants for this Program working in Cancer Cell Biology as Group Leaders. The candidates should have a recognized track in research on cancer biology and have led their own scientific group for at least five years. Successful candidates will receive a start up package and enjoy a stimulating and supportive research environment.

APPLY

Applicants should submit curriculum vitae, a summary of research plans, and two letters of reference to:

IMIM-Hospital del Mar
Att. Dr. Joan Albanell Mestres
Parc de Recerca Biomèdica de Barcelona
c/ Doctor Aiguader, 88
08003 Barcelona, Spain
